## Description

Format and file a Cnf document.

If the Cnf document has enclosures, the enclosures must be Cnf or Txt documents.

The document format of the resulting document is Txt. Error messages, warnings and information are inserted as comments into the Txt document.

You cannot format and file a Cnf document which is currently stored in a system folder such as the Inbasket (except Work).

Successful termination of Z-FILCNF always results in an END TRANSACTION. You are not able to control transaction handling.
